Proposed by Cllr RS Raywood and seconded by Mr Carey

P.24/25.161 Public participation *(to provide members of the public/press with the opportunity to comment on items on the agenda or raise items for future consideration. In accordance with Standing Orders this will not exceed 12 minutes in total and 3 minutes per person)*

Four members of the public spoke about the following item - **Application for siting of InPost Parcel Locker (relocation of existing locker)**

The first couple stated how the 33 lockers were installed without planning permission. They confirmed the lockers have been in their current location since January of this year, the unit is very large, it has lights on all hours and people using them come and go continually during the day and night. Concerns regarding the noise, parking, road safety and cars parked across the pavement were raised.

Two other members of the public spoke of similar concerns, adding that the cars manoeuvring in and out of the car park cause issues at the bus stop which is located by the car park entrance.

P.24/25.162 To note correspondence

A public consultation on improvements to M5 J9 started on Monday. There will be a public engagement event in the Watson Hall on Saturday 19th October, from 10.00am until 5.00pm.

P.24/25.163 To receive the Borough Councillor's report (if applicable)

Following the recent cyber problems, the Borough Council is back up and running. It has however lost a month and has much catching up to do.

In view of the unusual length of this evening's agenda, and out of consideration for those members of the public who were present, committee members were unanimous in wishing to change the agenda order and deal with the following application from item 14 first:

Application for siting of InPost Parcel Locker (relocation of existing locker)
Tewkesbury Squash Club 13 Ashchurch Road Tewkesbury Gloucestershire GL20 8DP
Ref. No: 24/00690/FUL

Observations:

Objection - Town Council strongly objects to the very premise on which this application is based, since it's an application which seeks approval to a change to a non-consented position. We feel this is an inappropriate facility for a residential area due to its 24 7 use when the gym only has permission for defined hours. Due to the

constant light and noise pollution outside social times which impacts on neighbours and takes away the amenity of their own property and gardens, we consider this unacceptable.

Even without this facility, the property is over-developed and parking is not sufficient and we feel the proposal has not demonstrated that it meets the requirements of the National Planning Policy Framework with respect to highways safety and operation. We note that vehicles park on the pavements and cycleway and visibility for people wishing to catch buses at the local bus stop is impeded. We are concerned for the safety of school children who have to weave their way between cars and delivery vans on their way to school, evidence of which has already been sent to and acknowledged by the Borough.

We are concerned about the operation of the car park and due to this and the highway concerns, we would be interested in the position taken by the County Council. A technical note comparing the proposed against the consented position may also provide useful information for the determination of this application.

We understand that the initial installation of this unit which has yet to be authorised is subject to complaints 24/00021/ENF from January and second stage formal complaint COM/937 which has an estimated report back date of 14 October.

- P.24/25.165** **Installation of two digital display screens**
Planning Application

P.24/25.169 To receive the current budget report and earmarked reserves report
